## 1. Overview of Operating Results, etc.

### (1) Overview of Operating Results for the Year under Review

The Japanese economy during the fiscal year under review saw signs of a temporary recovery following the lifting of the state of emergency on September 30. However, the pace of the economic activity resumption has remained slow due to delayed vaccination rollout and the effects of production constraints centered on the automobile industry, etc. since the rapid spread of Omicron strain from the beginning of the year. Overseas economies continue to pick up globally, especially in Europe and the United States. However, economic outlook is extremely uncertain due to global issues becoming more serious, as exemplified by prolonged constraints on supply of semiconductors and other materials, high energy and resources prices accelerated by Russia's invasion of Ukraine, and rising logistics costs due to a global shortage of containers and soaring sea freight rates.

Under these circumstances, for the fiscal year under review, the Group posted net sales of ¥54,137 million (up 9.2% year-on-year), operating profit of ¥8,400 million (up 13.5% year-on-year), ordinary profit of ¥9,291 million (up 16.2% year-on-year) and profit attributable to owners of parent of ¥6,878 million (up 19.4% year-on-year), all of which increased from the previous year's results. In addition, net sales, operating profit, ordinary profit, and profit attributable to owners of parent all hit record highs and achieved high levels against the backdrop of global economic recovery from the COVID-19 pandemic.

Operating results by segment are as follows.

#### **1) Chemicals operations**

##### (Inorganic chemicals)

Sales of insoluble sulfur, a material for radial tires, largely surpassed those of the previous fiscal year, which was affected by the spread of COVID-19, due to solid demand for replacement tires and industrial vehicle tires, despite a decline in automobile production resulting from semiconductor shortages. Sales of carbon disulfide for rayon and cellophane, and sodium sulfate for bath agents and detergents increased year on year due to a rebound from the COVID-19 pandemic.

##### (Organic chemicals)

Regarding chlorinated isocyanuric acid for disinfectants, the domestic market performed better than the previous year mainly due to a recovery in sales of agents for swimming pools following the partial resumption of swimming lessons at schools. In the U.S. market, the balance between supply and demand is tightening mainly due to a recovery in economic conditions and stay-at-home demand, and the Company tried to improve profitability by passing on soaring resource prices and distribution costs, which resulted in a significant increase in profitability.

##### (Fine chemicals)

Regarding Glicoat-SMD, a heat-resistant soluble OSP (Organic Solderability Preservative) for printed wiring boards, sales remained solid, against a backdrop of the growth of electronics markets worldwide. Sales of advanced & specialty chemicals such as epoxy resin curing agent (imidazoles), resin modifier (glycoluril derivatives, etc.) and semiconductor processing materials increased year on year, backed by an increase in demand for use in electronic components.

As a result, net sales for the chemicals operations segment were ¥34,995 million (up 17.2% year-on-year), and segment profit was ¥7,545 million (up 33.2% year-on-year), both surpassing the previous year's results.

#### **2) Housing Materials operations**

Although the number of new housing starts showed signs of a slight recovery, sales of interior, exterior finishes and paving materials and exterior products remained sluggish, as governments and private companies

deferred or had a wait-and-see attitude for their projects or capital investment, against a backdrop of falling consumer sentiment and uncertainty about the future. Profitability also declined due to soaring prices of raw materials including aluminum ingots.

As a result, net sales for the housing materials operations segment were ¥17,961 million (down 4.3% year-on-year), and segment profit was ¥2,576 million (down 26.5% year-on-year), both falling below the previous year's results.

## (2) Overview of Financial Position for the Year under Review

### (Status of assets, liabilities and net assets)

Total assets increased by ¥6,461 million from the end of the previous fiscal year to ¥113,805 million. Major increases were ¥2,625 million in investment securities and ¥1,767 million in accounts receivable - trade.

Liabilities increased by ¥2,119 million from the end of the previous fiscal year to ¥32,897 million. A major increase was ¥2,000 million in current portion of long-term borrowings.

Net assets increased by ¥4,342 million from the end of the previous fiscal year to ¥80,908 million. Major increases were ¥3,334 million in retained earnings and ¥1,064 million in valuation difference on available-for-sale securities.

As a result, equity ratio fell to 70.3%, from 70.5% at the end of the previous fiscal year.

## (3) Overview of Cash Flows for the Year under Review

Cash flows provided by operating activities totaled ¥5,089 million (a decrease of ¥2,321 million year-on-year). Major cash inflows were profit before income taxes of ¥9,710 million and depreciation of ¥2,090 million, while a major cash outflow was income taxes paid of ¥2,739 million.

Cash flows used in investing activities totaled ¥5,087 million (an increase of ¥2,087 million year-on-year). The major component was purchase of property, plant and equipment of ¥4,153 million.

Cash flows used in financing activities totaled ¥1,809 million (an increase of ¥1,898 million year-on-year). A major cash inflow was proceeds from long-term borrowings of ¥2,160 million, while major cash outflows were purchase of treasury shares of ¥2,474 million and dividends paid of ¥1,326 million.

As a result, cash and cash equivalents totaled ¥35,755 million (a decrease of ¥1,451 million from the end of the previous fiscal year).

#### (4) Future Outlook

Consolidated financial results forecast for the year ending December 31, 2022 is as follows.

These financial results forecasts are based upon the assumption that the effect of COVID-19, soaring resource prices and logistics costs, and the impact of the situation in Russia and Ukraine on the world economy will not deteriorate any further.

Net sales are expected to grow at a higher rate year-on-year, driven primarily by exports of insoluble sulfur and chlorinated isocyanuric acid, against the backdrop of the recovery of the global economy. Even though the Company has been flexibly passing on resource prices and logistics costs, the chlorinated isocyanuric acid manufacturing facility, which is under construction at a cost of approximately ¥5 billion, will start operation in July 2022. Therefore, profit is expected to be lower year-on-year due to the advancement of depreciation burden associated with the declining balance method for depreciation of the asset.

The business environment surrounding the Company is expected to remain extremely uncertain. If it becomes necessary to revise the financial results forecasts due to changes in the situation, the Company will promptly announce the revision.

(Notes) 1. The major exchange rates assumed in the above financial results forecast were ¥120 to \$1 and ¥130 to €1.

2. The Company plans to change its fiscal year-end (the last day of the fiscal year) from March 31 to December 31 of each year beginning with the 103rd fiscal year, conditional upon the approval for an associated amendment to the Articles of Incorporation at the 102nd Annual General Meeting of Shareholders to be held on June 24, 2022. Due to this change in fiscal year-end, the 103rd fiscal year will be a transitional period of nine months from April 1, 2022 to December 31, 2022. Therefore, the above forecast of consolidated financial results for the year ending December 31, 2022 represents nine-month forecast figures, and the percentage changes from the previous corresponding period are omitted.
3. The above financial results forecasts are based on information currently available to the Company as of the date of this report, and do not constitute a guarantee of future results. Actual results may differ significantly from these forecasts due to a wide range of factors.

#### (5) Basic Policy regarding Distribution of Earnings and Dividends for the Current and Next Fiscal Years

As a basic policy for shareholder returns, the Company aims to achieve “a dividend payout ratio of 30% and a total payout ratio of 50% based on consolidated financial results” under the “Challenge 1000” long-term vision towards 2030.

The Company has decided to pay an annual dividend of ¥24 per share for the fiscal year under review, or a year-end dividend of ¥12 per share after deducting the interim dividend already paid (¥12).

As for the interim dividend for the year ending December 31, 2022, in consideration of the above policy, business performance and financial situation, the Company plans to pay a dividend of ¥13 yen per share, which is made up of ¥12 per share and additional ¥1 as a commemorative dividend to celebrate the Company’s 75th anniversary since the establishment on October 10 of this year.

As for the year-end dividend forecast, the Company plans to increase the dividend by ¥1 as a commemorative dividend as well and expects to pay ¥13 per share as described above. As a result, the annual dividend forecast for the year ending December 31, 2022 will be ¥26 per share.

## 2. Basic Policy on Selection of Accounting Standards

The Group plans to adopt Japanese GAAP in preparing its consolidated financial statements for the time being, given that the Group has little need to raise funds from overseas and considering the burden of preparing its consolidated financial statements based on the International Financial Reporting Standards (IFRS). However, the Group will consider the adoption of IFRS depending on future needs.

## (5) Notes to Consolidated Financial Statements

(Notes on going concern assumption)

There is no relevant information.

(Changes in accounting policies)

(Adoption of Accounting Standard for Revenue Recognition, etc.)

The Company has applied the “Accounting Standard for Revenue Recognition” (ASBJ Statement No. 29, March 31, 2020, hereinafter referred to as “Revenue Recognition Accounting Standard”) from the beginning of the fiscal year under review to recognize revenue when control of promised goods or services is transferred to a customer in the estimated amount to be received in exchange for those goods or services.

The application of the Revenue Recognition Accounting Standard follows the transitional measures set forth in the proviso of Paragraph 84 of the Revenue Recognition Accounting Standard, but has no impact on the beginning balance of retained earnings.

In addition, the adoption of the Revenue Recognition Accounting Standard has no impact on Consolidated Financial Statements for the fiscal year under review.

“Notes and accounts receivable - trade” presented in “Current assets” in the Consolidated Balance Sheet of the previous fiscal year are presented in “Notes receivable - trade” and “Accounts receivable - trade” from the fiscal year under review. Accordingly, the Company made reclassification of the previous fiscal year’s Consolidated Balance Sheet due to the change.

(Adoption of Accounting Standard for Fair Value Measurement, etc.)

The Company has applied the “Accounting Standard for Fair Value Measurement” (ASBJ Statement No. 30, July 4, 2019, hereinafter referred to as “Fair Value Measurement Accounting Standard”) from the beginning of the fiscal year under review. In accordance with the transitional measures set forth in Paragraph 19 of the Fair Value Measurement Accounting Standard and Paragraph 44-2 of the “Accounting Standard for Financial Instruments” (ASBJ Statement No. 10, July 4, 2019), the Company has applied the new accounting policies set forth in the Fair Value Measurement Accounting Standard into the future. This application has no impact on the consolidated financial statements.

(Segment information, etc.)

### 1. Overview of reportable segments

The Group’s reportable segments are components within the Group for which discrete financial information is available and are regularly reviewed by the Company’s Board of Directors for the purpose of determining the allocation of management resources and evaluating performance.

Each business division of the Company formulates comprehensive strategies for domestic and overseas businesses in relation to the products and services it handles and carries out business activities accordingly.

Therefore, the Group is comprised of segments that are classified according to products and services based on its business divisions. The two reportable segments of the Group are “Chemicals operations” and “Housing Materials operations.”

The “Chemicals operations” segment is engaged in the production and sale of chemical products such as inorganic chemicals, organic chemicals and fine chemicals. The “Housing Materials operations” segment is engaged in the production and sale of building and construction materials such as interior and exterior decorative walls, exterior products and aluminum shutters.

### 2. Calculation methods of net sales, profit, loss, assets and other items by reportable segment

The method of accounting for the business segments reported are the same as those described in “Important Matters that Form the Basis for Preparing Consolidated Financial Statements.”

Profit of the reportable segments is based on operating profit.

Inter-segment net sales and transfers are based on market price.

3. Information on net sales, profit (loss), assets and other items by reportable segment and information on composition of revenue
